Scandinavian minimalistic design • Moodmaker™ 3-step dimmable with memory function • 350 lumen per lamp head • Rotatable arms for creating your own style and directions • LED lifespan: 25,000 hours

Slim Nordic design meets innovative technology in the Clyde series. The built-in Moodmaker™ function lets you adjust the light in three steps from a regular wall switch. With its four light sources, Clyde is ideal for long dining or kitchen tables, offering plenty of light without blocking the view or taking up space. The Moodmaker™ function allows you to switch from bright, functional lighting to a warm and cosy atmosphere for dinners with family and friends. The height of the lamp can be adjusted by concealing part of the cable inside the canopy. This way, you avoid cutting the cable. When part of the cable is hidden inside the canopy, the lamp can hang with a minimum cable length of 60 cm.
